

... Somehow it's > > NO LEAK < < ...

... somehow the best autistic people will > > NOT < < get an additional diagnosis ...

... somehow mental institutions and mind-control have > > NOTHING < < in common ...

... somehow we should repeat all the phrase "THERE IS NO MIND CONTROL" ...

... work, consume, sleep ...

... there was also NO MIND-CONTROL at Lucky & Tigrou Party 2000 in France ...

... nor was a MFX - Ultimatum to the World at Buenzli 2007 in Wintertur Switzerland ...

i think i am to old for your group, i just would cause to much head-ache so I leave without causing more head-ache to younger people

if you think the same way it is completely ok for me or us, we dont want to send younger people to i cyberwar, but we try to warn the best what could happen -- so if you get diagnosed with Schizophrenia && you are good in Computer-Science, just call the Mental Instituion "Enemy Territory" like i do with Staatlicher Psychiatrie Königsfelden in Canton of Aargau.

if you think Marc jr. ist strange but somehow also an enrichment to our group then add me to your group again, i hardly never block andybody and in this case i would have at least the full consent with the administrators, and such things happen [UnpxrefPneqtnzr 2432] not only to one group in Telegram.

One last Puzzle:

I asked Gary McKinnon (UFO Hacker) ...

"are UFO Blueprints (conspiracy theory) secret meta language for implants since 1950"

... he just answerd "do you like out of body experiences"

Still not sure what he meant with that.
